

Husk Savannah's beverage program features artfully crafted cocktails, an extensive whiskey collection, and selected wines, showcasing artisan producers, small productions, and rare finds. Organized by soil type, the wine list not only represents the area in which the wines were grown but also invokes a sense of place, celebrating the farmers and wine producers of the region. Constantly evolving, the wine list and cocktail selection at Husk exemplify the restaurant's commitment to its Southern ideology.

Southern Soda

Abita Root Beer

Abita Root Beer is made with a hot mix process using spring water, herbs, vanilla and yucca (which creates foam). Unlike most soft drink manufacturers, Abita sweetens its root beer with pure Louisiana cane sugar. The resulting taste is reminiscent of soft drinks made in the 1940s and 1950s, before bottlers turned to corn sugar and fructose..... 4

Cannonborough (Raspberry Mint)

Three young dudes running a soda company... what could go wrong? Who knows, but fortunately for Cannonborough Beverage Company in Charleston, South Carolina, a lot has gone right. And a lot of it has to do with their location. Charleston is a city renowned for its local produce and fruits with a vibrant farmer's market community..... 6

Southern Beer & Cider

The boom in the quality over quantity brewery landscape over the last several years has made serving a multitude of Southern beers a possibility, but also a responsibility. We seek out like-minded thinkers that focus on quality agricultural ingredients to make beer. We aspire to have a balanced array of styles for each and every palate.

Lager - Creature Comforts Brewing. , "Classic City," Savannah, GA 4.2 ABV (13.5 oz draft)	8

Husk Creations

Depending on the time and place, we allow the bounty of what's in front of us to influence our drinks. Our bar is outfitted with an ever-changing menu rooted in classic cocktails and tippling traditions, all while mirroring the restaurant's commitment to seasonality. A stroll through the garden, talk with a farmer or smell of what's cooking in the kitchen can conjure up a moment of inspiration. We try to take those moments, the smell, the thought, the revelation and put it in a glass for our friends and family to taste. Cheers!

*Party like its January 17, 1920, or as many imbibing intellectuals know it, Prohibition!
Inspired creations without the hangover.*

Natural Remedy

Seedlip Spice, Ginger, Honey, Lemon, Smoked Saline..... 9

Bramble On

Amethyst Blueberry Ginger, Blackberry, Sage, Lemon, Soda..... 9

HUSK Wine List

As an agricultural product, grapes show a breadth of characteristics from the place in which they are grown.

Starting from the ground up, the soil is the foundation that creates the backbone for all grapes.

Detailed below are the profiles of each soil type and the particular complexities they may add to a wine.

Soil Type

A = Alluvial (sand, clay, gravel, silt/loess, loam) soils are blends that have good water and nutrient retention, which can translate into a more opulent style of wine. Throughout the world, these are the most prolific vine soils and a good place to look for more fruit-forward, approachable and juicy wines.

S = Sedimentary (limestone, sandstone, silex/flint) rock soils are made from solidified mineral or organic deposits. These soils work like a sponge, wicking water away and storing it as reserves for the vines when water is scarce. Highly valued in cool climates because of its heat reflection capabilities, this is a good place to look for bright, balanced, mineral-driven wines and bubbly!

M = Metamorphic (slate, schist, gneiss) rock soils are formed under pressure from another type of rock, with many color variations and mineral make-up. Dark colors retain and radiate heat, contributing to ripening, helping develop color and more interesting flavors in grapes. Wines can have an underlying mineral quality and can be quite powerful, yet balanced.

I = Igneous (volcanic, basalt, pumice, granite) rock soils are formed by lava flows above and below the earth's surface. Volcanic soil is formed from molten lava and ash deposited from the earth's surface. Granite is a plutonic rock formed deep under the earth's surface. Resulting wines are typically powerful with an earthy, ashy element, often savory and complex.

Angel Oak Wines

The owners of Husk are proud to present The Angel Oak, wines created and bottled in our own vineyard located in picturesque Valle de Uco, one of the world's most extraordinary wine regions located just SW of Mendoza, Argentina. We make a white Torrontes, a dry French style Rosé, Premium level Malbec and Assemblage (Blend) and 'Reserva' level Malbec and Assemblage (Blend) with extended aging. Consistently a 90-plus rating by Wine Enthusiast, Wine Spectator and James Suckling.
